PASSED AUDITS (22) Show

Accessibility

These checks highlight opportunities to improve the accessibility of your web app. Automatic detection can only detect a subset of issues and does not guarantee the accessibility of your web app, so manual testing is also encouraged.

Background and foreground colors do not have a sufficient contrast ratio.

~

These are opportunities to improve the legibility of your content.

NAMES AND LABELS

Form elements do not have associated labels

~

These are opportunities to improve the semantics of the controls in your application. This may enhance the experience for users of assistive technology, like a screen reader.

ADDITIONAL ITEMS TO MANUALLY CHECK (10)
